

We're hiring

Cerus Europe B.V. is looking for a Deployment Manager Germany, Austria, Switzerland (DACH) Region

WE

Cerus Corporation is a **biomedical products company** focused in the field of **blood safety**. The **INTERCEPT™ Blood System** is designed to **reduce the risk of transfusion-transmitted infections** by inactivating a broad range of pathogens such as viruses, bacteria and parasites that may be present in **donated blood**. Cerus currently markets and sells the INTERCEPT Blood System for **both platelets and plasma** in the United States, Europe, CIS, the Middle East and selected countries in other regions around the world.

WHAT

Within this role you will **manage the deployment of INTERCEPT Blood System for platelets and plasma** throughout the Cerus sales process, **provide support and service to customers**, and **ensure that customer requirements are met**, while in line with company policies and procedures, to **achieve customer satisfaction**.

You will mainly:

- Develop, implement and maintain deployment systems and training programs;
- Support validation and qualifications of INTERCEPT at customer sites, may include **intensive support for Manufacturing Licenses (MLs) and Market Authorization Applications (MAAs)**;
- Provide support to Sales;
- Collect deployment support requests and timelines;
- Report on deployment activities and customer visits;
- Participate in or represent deployment on project and tender teams;

For further details, please visit our [website](#).

YOU

The right person is a **native German resident**, a team player who also enjoys working independently. He/she is **quality oriented**, pays **attention to details**, and has good **interpersonal and time management skills**.

You know what it's like to work in a biomedical and/or pharmaceutical industry, therefore have a **professional image** and can interact with a **diverse customer portfolio**. You must be able to **travel intensively**.

In addition **you have...**

- Bachelor's Degree or equivalent;
- 2+ years of experience in Blood Bank practice (blood product preparation, apheresis techniques);
- A laboratory, technical, medical or scientific background in transfusion medicine, stem cell transplantation or haematology;
- Proficiency with MS Office
- Native skills in local language and proficient in English;
- A valid driving license;
- And a strong background and interest in training and education.

Interested? Please send your CV to HREurope@cerus.com or apply via our website.
